

TOWN OF PRESCOTT VALLEY GLASSFORD HILL ROAD ENHANCEMENT PROJECT

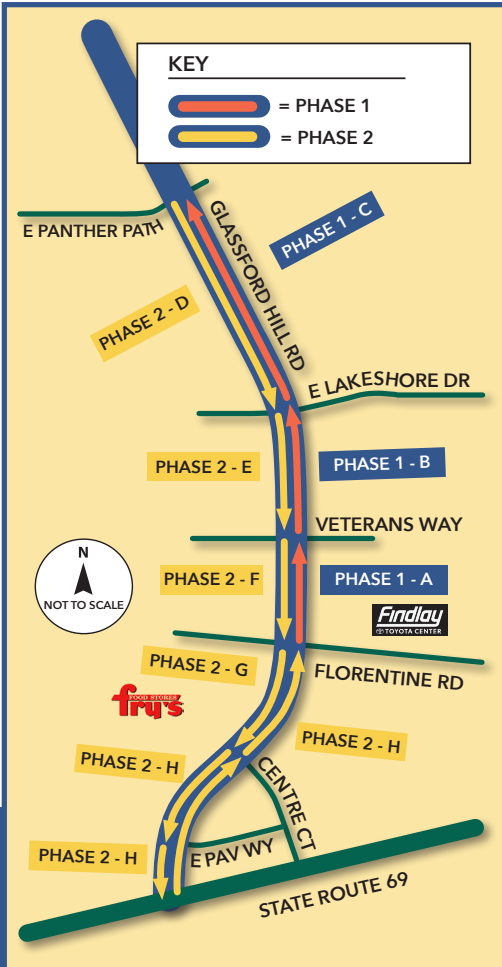

About the Project: The Town of Prescott Valley will begin a pavement and enhancement project on Glassford Hill Road from State Route 69 to Panther Path. Work will begin in early June and paving is expected to be complete by mid-December.

What to Expect: This much-needed road enhancement project includes new pavement, improved drainage with curb and gutter, new sidewalks from Florentine to Veterans Way and at Frontage Road to improve pedestrian use along the corridor; new striping and crosswalk improvements.

Work hours are Monday through Friday from 7 a.m. to 7 p.m. *some night work is expected. There will be full lane closures and some turning movements will be restricted through the work zone. Crews will remove up to two feet of existing materials to adequately improve the heavily traveled roadway. Delays and impacts are expected during construction. Our project outreach team is here to respond to concerns and questions throughout the project.

** night work is intermittent and will be updated on the project website when scheduled.*

Once the Project is Done: Drivers will enjoy a smooth and improved roadway through the heart of Prescott Valley. We appreciate your patience and cooperation during construction.
